1) Conversation

You are going to have a conversation with your assessor about a difficult journey. The conversation should last between 5 and 10 minutes.

a) First, you will listen to your assessor describing a difficult journey. Ask questions to get more details.

You should ask at least three questions.

b) Then you will speak about a difficult journey you made.

The following questions might help you to think about what you are going to say.

- Where was the journey from and to?
- When was the journey made?
- Were you on your own or with other people?
- What made it difficult?
- How did the journey end?
2) Discussion

You will be in a group and together you are going to decide between two possible activities to do in your area.

You will need to agree which one you are going to do as a group.

Information about the two activities is included in Appendix A, on the next page.

The discussion should last between 10 and 15 minutes.

In your discussion, make sure that you:

- decide what you like about each activity and if there is anything you don’t like
- explain these to the rest of the group
- decide which you would prefer
- try to persuade your group to take part in this activity
- remember to listen to and respect each other’s opinions.
APPENDIX A
Discussion - Section A

Below are two experiences you can have in your area. As a group you are going to discuss which one you would most like to do.

Read through the information first.

Experience 1

British Airways i360 Tower experience
Glide up slowly to 450 ft in the giant glass viewing pod. Enjoy 360 degree views across the rooftops of Brighton, up to the South Downs, across the coastline to the Seven Sisters and looking west to the Isle of Wight. The pod is heated and air-conditioned to ensure year-round comfort and it is fully accessible for wheelchair users. A viewing map is available and a multi-lingual app, available in 10 languages, can be downloaded before you board.

Experience 2

Zip wire experiences
Enjoy the ultimate tree-top thrill as you descend through the beautiful Cumbrian forests on four amazing zip wires suspended high up among the treetops. This is the longest zip wire experience currently available in the UK. You'll start your adventure with a safety briefing after which it will be time to tackle the 20 minute up-hill walk from the training area to the vehicle pick-up point. Here you'll be driven by Land Rover up winding mountain roads to the start of the course.

Now discuss both these possibilities and agree which one you would like to do as a group. Remember to listen to the other members of your group and to respect their opinions.

APPENDIX B

Discussion - Section B

Below is information about the planning of a new bypass south of Ely to help solve the traffic problem in the area. As a group you are going to discuss the advantages and disadvantages mentioned in this article.

A new bypass is needed south of Ely to take traffic away from the city centre.

These are the arguments in favour of it from Transport UK.

- To reduce congestion in the city centre
- To improve safety as it involves a smoother and safer route along a dual carriageway
- To decrease journey times for many workers
- To access to local businesses, welcoming in new customers
- To renew local infrastructure - new schools and doctor's surgeries in better locations and investment in playing fields

These are the arguments against it from some local residents.

- Loss of green belt agricultural land, wildlife and local landscape character
- A by-pass would destroy existing footpaths and bridleways
- Increased noise pollution from faster traffic
- Effect on existing house prices during development / noise
- Expansion of town population could lead to community issues

Think about whether you are in favour of the new bypass or not. Discuss this with your group and try to come to some agreement.

Remember to listen to the other members of your group and to respect their opinions.
